

Step Solutions introduces Data Lockdown... ...for Insolvency Practitioners

As the threat of data fraud becomes ever more prevalent and legislation surrounding data more stringent the importance of managing your data assets correctly is critical.

Data Lockdown from Step Solutions will mitigate the risk of data degradation, theft or breach of data legislation.

Data Lockdown is specifically designed to provide the assurance of 24/7 availability of on-site technical help to protect data and system assets.

Key benefits are:-

- High quality system and data specialists available 24/7
- Pre-insolvency planning allows issues to be identified in advance
- Cost effective project or hourly rates with analysed billing
- Eradicates risk of data loss or degradation

The service is designed to sit beside with the insolvency team at the critical start point of an assignment when systems and data assets are most at risk.

We provide the security and peace of mind of knowing that that essential data and system assets are immediately secured and protected.

The Step team act as a virtual and therefore cost effective organisation. The service can be billed on a project or hourly basis to suit your needs.
